This fall program is offered free of charge. Parents can [register their child online](https://hcdsb.formstack.com/forms/ilregistration) at <https://hcdsb.formstack.com/forms/ilregistration>. Registration will close on January 14th, 2022.

The International and Indigenous Languages Elementary Program creates new and exciting opportunities for our students to learn and engage with Language and Culture through diverse programming. Students will be given opportunities to develop and maintain their ability to engage with a familiar language from home or a new one entirely. As our students explore various Language activities and learning tasks, they will be immersed in the heritage and culture of that Language through the discovery of new traditions, foods, clothing, and art.
